

```
function PatientInfo(mn,name,age){
  /*Data Members */
  this.Mn=mn;
  this.Name=name;
  this.Age=age;
  return this;
}
//methods
PatientInfo.prototype.getMn=function() {
  return this.Mn;
}
//constructor applied using new binding
var obj1=new PatientInfo("Mn100","tom",45);
```
